### East Germany Plans 'Who's Who in C.I.A.'

BERLIN, May 7 (UPI)—A book entitled "Who's Who in the C.I.A." will be published soon in East Germany, it was reported today.

Western intelligence sources said they understood the book listed the names of about 3,500 persons, mostly Americans, working in the Western Hemisphere and in neutral countries.

The author, Julius Mader, contends that all those named are working for the Central Intelligence Agency.

Most are said to be American consuls, attaches, businessmen and other individuals living in Latin America, Western Europe including West Berlin, Africa and the Middle East.

The date on which "Who's Who in the C.I.A." will be published is not yet known. But it is said to be "soon," probably June 1 for the German-language edition and four weeks later for the English version.
